

FURA-SEPTIN - nitrofurazone dressing
Bimeda, Inc. Division of Cross Vetpharm Group

Indications: For the prevention or treatment of surface bacterial infections of wounds, burns and cutaneous ulcers. For use only on dogs, cats and horses.

Administration: Apply directly on the lesion with a spatula or first place on a piece of gauze. Application of a bandage is optional. This preparation should be in contact with the lesion for at least 24 hours. The dressing may be changed several times daily or left on the lesion for a longer period.

Caution: In case of deep or puncture wounds or serious burns consult veterinarian. If redness, irritation, or swelling persists or increases, discontinue use and consult a veterinarian.

Human Warnings: Carcinogenesis: Nitrofurazone, the active ingredient of Fura-Septin Dressing has been shown to produce mammary tumors in rats and ovarian tumors in mice.

Additionally, some people may be hypersensitive to this product.

Either wear gloves when applying, or wash hands afterwards.

Avoid exposure to excessive heat or direct sunlight and strong fluorescent lighting.

Not to be used on animals intended for food purposes.

Store at 20deg - 25deg C (68deg - 77deg F); excursions permitted to 15deg - 30deg C (59deg - 86deg F)
(See USP Controlled Room Temperature).
